

Doctoral Study Program - Advanced Topics in Microeconomics Winter term 2025/26

Course Description:

This course provides a broad overview over the field of microeconomics, especially microeconomic theory. We will apply mathematical methods to describe and develop the theoretical foundations of microeconomics. We will use the classical microeconomic textbook for doctoral students, Microeconomic Theory by Andreu Mas-Colell, Michael D. Whinston, and Jerry R. Green. We will select chapters from this book, which we will read and discuss together. Therefore, the preparation and active participation of doctoral students is required. The course will take place on Wednesday from 9.15 to 11.30 in room S05.

Modalities:

The course will take place on Wednesday from 9.15 to 11.30 in room S05.

Course coordinator:
